AIR KISSES

by Zoe Foster

Penguin, rrp \$32.95

ISBN 9780718105013

LIP gloss and lust — Zoe Foster's debut novel is heavy on both, but rises above the pap. It's the tale of beauty-mag newbie Hannah Atkins, and Foster wittily draws on her time as beauty editor at ACP titles. Her insight into the world of PR schmoozing, designer freebies and bitching mag hags is good fun. Foster might also be seen as drawing on her own on-off romance with rugby league stud Craig Wing, as Hannah tangles with a trio of blokes, including a high-profile media identity. **M.M.**
